SCHOOLS TO SAVE THE WHITE SLAVE

Washington, D. C., June 29.—United States immigration officials in Washington are preparing to fight the so-called white slave evil with a new weapon. They propose to establish information bureaus or "schools" in every large city where unsophisticated girls will be advised against the danger of falling into the hands of agents of disorderly resorts. Immigrant girls will be met at all trains by federal officials and escorted to the information bureau. One of these information bureaus will be established in the downtown district of Chicago within a few weeks, in charge of Immigration Agent D. D. Davies.

STEVE ADAMS' TRIAL BEGINS

Grand Junction, June 29.—The trial of Steve Adams, charged with the murder of Arthur Collins five years ago at Telluride, was begun this morning in the district court. The examination of veniremen occupied the entire day and none of those examined have been accepted by either side. It will probably require two more days to get a jury. No members of the Western Federation of Miners will be allowed by the prosecution.

NO FAMILY TREES, SO WE'RE IGNORANT

Berkeley, Cal., June 29.—That family trees tracing several generations of ancestors are lacked by the people of the United States and that they are therefore uncultivated was the gist of remarks made to his class in English today at the university summer session by Prof. Robert Herrick, of the University of Chicago, known as one of the foremost men in his branch of education in the country. He said during an interlude in his class work this morning:

"It must be admitted that despite the rapid strides made by the American people in the past decades we are an uncultivated race. In my classes in Chicago I found that less than 30 per cent of the students could boast of an American ancestry for more than two generations. 'We are getting away from our bad English because we are becoming more and more free from the atmosphere of the foreign born where it is heard. We learn bad grammar from hearing it and the only hope for a desirable condition of affairs to exist is in the American home, where cultured people talk and teach culture to their children. This will come about only when the American educational system becomes old enough to have reached in its past all the members of the living family.'

WEST VIRGINIA FASTEST BATTLESHIP GOES 22.47 KNOTS

TOWNE'S BOOM ON

Leaps Into Vice-Presidential Breach As Compromise Man At Denver Convention

Denver, June 29.—With a red-hot fight in the New York delegation over the vice presidential nomination, comes a well-authenticated story that Charles A. Towne, who several weeks ago declared nothing would lure him from the profitable law practice he is said to be enjoying in New York city, has jumped into the breach "dear friends," and he is coming on to open headquarters and make the running for second place.

There would be nothing out of the ordinary in the statement that one new name had been added to the list of possibilities were it not for the fact that Towne's announcement comes at the conclusion of a visit to Lincoln, and the added statement that Bryan would like to have Charlie Towne on the ticket with him.

Local interest is added by the fact that Towne has been a visitor so frequently to Denver that he seems like a Colorado man.

His political career has been checked, and he is one of the few old-line Republicans carried by the silver advocacy from the G. O. P. straight into the Democratic camp, and he has at last landed high and dry as a Tammanyite.

While the candidacy of Towne is not taken seriously by most of the prominent Democrats on the ground, there is a possibility that he may be chosen, not as the most available candidate when the country at large is considered, but as the means of healing the strife within the party in the state of New York.

A New Yorker is regarded by many as the logical candidate, and as there is a full crop of statesmen from the Empire state who have lightning rods exposed, it would not be past calculations to select Towne as a compromise candidate.

Tammany will probably not stand

for Chanler, or Pugsley, or O'Brien, and neither of them, outside of Chanler, has a national reputation. They might agree upon Towne. All these predictions of what may happen is on the theory that the nomination goes to New York.

There is a strong feeling among politicians that William L. Douglas, former governor of Massachusetts, is the man for the emergency, but it is also generally thought he would not, at his age, with no particular liking for the political game, be induced to accept the place on the ticket.

Boosters for Judge George Gray of Delaware, who were to open headquarters on Saturday, have not appeared on the scene, and it looks very much as if the boom died a-bornin'.

Local sub-committees are hard at work securing accommodations in private residences for the great crowd that is now certain to invade Denver, and with this end in view state committees for different states, heretofore bunched, have been divided, and this evening many of these will meet to consider the situation.

SUMMER HOTEL BURNS TO GROUND

Colorado Springs, June 29.—The Green Mountain hotel at Green Mountain Falls was burned to the ground tonight, the conflagration starting from the explosion of a kerosene lamp. The loss to the building is \$50,000, about half of which is covered by insurance.

The place was inadequately supplied with fire fighting apparatus and the citizens of the place were powerless to check the flames.

MRS. CLEVELAND ORDERS MEMOIRS OF HER HUSBAND
